SUBJECT

Estimate for the Electrification of Nanganganal Dam

papers ordered to be filed

ELECTRICAL SECRETARIAT,

No. E D S. 10
Encls.

Dated Bangalore, 26 MAY 193

From

K. R. SESHACHAR, Esq., B.A, B.E, C.E.,
Secretary to the Government of Mysore,
Electrical Department,
Bangalore.

To

S. G FORBES, Esq., E E, B Sc., E & M E,
Chief Electrical Engineer to the
Government of Mysore, Bangalore

Sir,

Subject:- Electrification of Nanjangud Town.

I am directed to return herewith, duly sanctioned by Government, the estimate for Rs.1,37,127 received with your letter No.29874 dated the 24th March 1928 in connection with the Electrification of Nanjangud Town.

2. Sanction is also conveyed to the application to Nanjangud Town of the rules and regulations which may from time to time govern the supply of electric power for lighting and power purposes in the Cities of Bangalore, Mysore and Kolar Gold Fields etc., and to the acceptance of the rate of 8% guaranteed by the Nanjangud Municipality on the Capital Cost.

3. Necessary provision for the work referred to above, may kindly be made both under Capital, Operation and Maintenance in the next year's Budget by readjustment of the grants allowed for the Electrical Department.

I have the honour to be,
Sir,
Your most obedient servant,

Sd. K. R. Seshachar,
Secretary to Government,
Electrical Department.

requested to furnish the information as to the total number of Street Lights for which the Municipality will have to pay and what would be the cost on this account. This information is perhaps necessary to know whether the Lighting Charges after the introduction of Electricity will be very higher than the present Lighting charges, if so by how much. The report of the Dy Collector seems to be quite full. The Residents do not like the Suppla Power of Lighting whereas some Capitalists & the Electrical Deptt is unanimously satisfied if necessary HC may be consulted

4/10 The Electrical Deptt have Sanctioned the Scheme for the electrification of the Nungambakkam Town at a Capital Cost of Rs 1,37,127 the Municipal Council have to guarantee interest at 5% on the Capital Cost which

SUBJECT — Provision by the Municipal Council Nan anagud for electrification

---

Sir

With reference to your No 8810 dated 15th June 1928 enquiring what amount the Municipal Council of Nanjanagud would assure every year towards the cost of electrification of the town etc I have the honour to state that the President Nanjanagud in his letter dated 25-9-27 to the Superintendent Power and Light Mysore has assured Rs 7500/- in all by the Municipality and Rs 1100/- from the temple

A copy of the D O in question which furnishes the detailed information on the subject is herewith sent for reference

I have the honour to be

Sir,
Your most obedient servant

Mysore District
(absent from Station)

D O. letter dated 15-9-1928 from the President, Town Municipal Council, Nanjangud to the Superintendent, Power and Lighting, Mysore

---

With reference to our personal conversation this morning I have much pleasure in furnishing the following facts and figures -

At present the Municipality is lighting 100 street lights at ₹ 1-2-0 per light per month, which amounts to ₹ 1350 per annum A sum of ₹ 1700 has been provided in the current year's Municipal Budget under the head of lighting charges out of which 1500/- Rupees is for lighting by contract and ₹ 200/- is the cost of lamps, burners etc. This provision will have to be enhanced to, at least ₹ 2500/- in the near future as there are very few lights in the extension now, and there is great complaint We have therefore to increase the lights by 50 more

A sum of ₹ 6000/- per year is being provided in the budget on account of the establishment, liquid fuel, oil and all other maintenance charges, in connection with the Sri Srikanteswara Water Works where we have a 12 H.P. Blackstone Crude Oil Engine working. The establishment we have entertained at present is noted in the margin

Head Driver	₹ 55/-	per annum
Assistant "	" 25-8-0	"
Fitter	" 20/-	"
4 Cleaners at ₹ 10/- each	" 40/-	"
	₹ 142-8-0	per mensem or ₹ 1710/- per year

Deducting this, the expenditure on liquid fuel, oil etc., comes to ₹ 4290/- per annum. The capacity of our reservoir is 1090.000 gallons The population as per census is 7484 At present we are not supplying filtered water to the extension But when power becomes cheap, we want to take up this question also. Perhaps then we might be able to save something in establishment charges also. Any way you may put down our expenditure on this account as about ₹ 5000/-

Roughly

Roughly on both accounts we may guarantee R 7500/- per annum on behalf of the Municipality

I can guarantee not less than R$ 1100/- per annum on behalf of the temple

Then there is the question of private house connection and power installations for industrial purposes On this point, please refer to my D O dated 29-11-1926 to Mr Patankar

If there is any other point on which you want information, I shall be glad to furnish the same on hearing from you
